

# Municipal Base Plate

*With Frame Carrier for tractors without front linkage  
Connection kits for different frontlinkage systems*

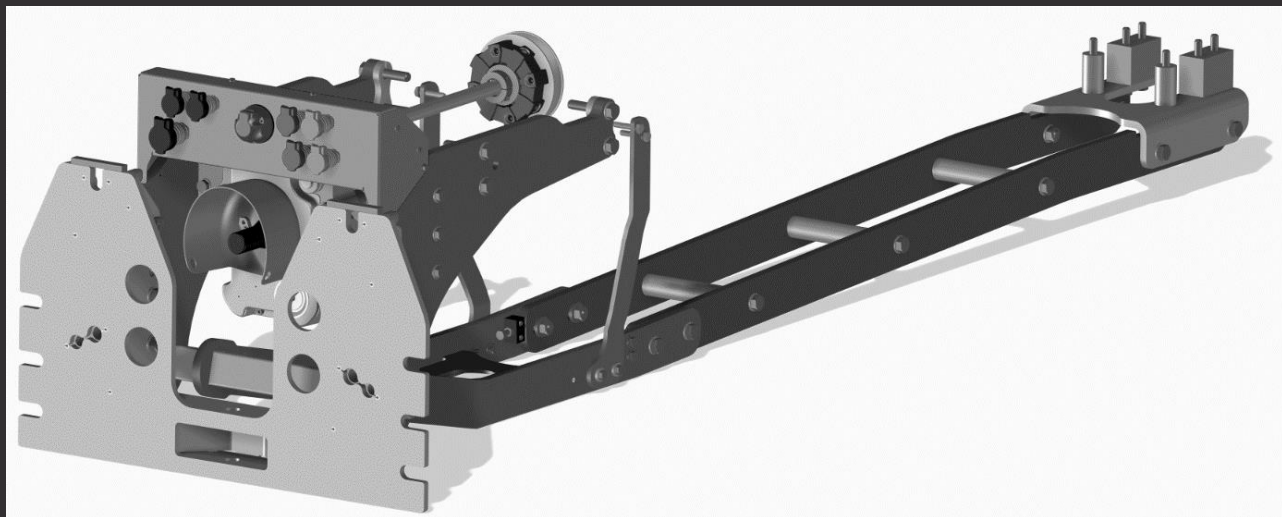

## **Smart attachment**

For tractors without a front linkage systems, Zuidberg developed this carrier, which can be fitted easily to the tractor frame. Depending on the use and necessary functions, a PTO can be combined as well as a cover plate to mount additional hydraulics and a 12 Volt connector. Adding more functionality and value to your tractor!

## **Ready for winter season!**

The Zuidberg municipal frame carrier is compatible with almost all common snow ploughs - for the DIN standard (German industrial standard) A, B, F1 and F2, as well as for Euro 3 or 5. For tractors with a frontlinkage systems already mounted, a municipal base plate can be mounted on all Zuidberg front linkage systems with cast iron lift frame's (13kN up to 60kN).
